

Dear girls and parents,

Ms Dermody here! I hope you have been well since we last met and that you are remembering to stay safe and be kind at home. I am sending you some nice work for you to try at home. I would also like you to keep an eye on the school website where I will send you little messages from time to time.

(How many sheep?)

This week we look at some words. **Odd Even Above Below Beside**

1,3,5,7,9,11,,,,,,,,,these are **odd** numbers

2,4,6,8,10,12,14,,,,,,,,,these are **even** numbers

Look at the hundred square.

3 is **above** 13, 7 is **above** 17

32 is **below** 22, 28 is **below** 18

We are adding. We are going to add so we will have **more** at the end.

$$4+6=10$$

We are taking away. We are going to take away so we have **less** at the end.

$$10-7=3$$

You might need a grown up to help you scroll down to find the maths pages at the end. You do **NOT** need to print the pages, just do them in your copy.

With best wishes, missing you all, Ms Dermody

Use the hundred square for the counting

Monday

We are going to do more counting this week

Count up in 2s to 20

Count up in 3s to 30

Count up in 5s to 50

Count up in 10s to 100

Count back in 2s from 20

Count back in 3s from 30

Count back in 5s from 50

Count back in 10s from 100

Read all the odd numbers between with 0 and 20. Do it again.

Read all the even numbers between 0 and 20. Do it again.

What is the biggest number on each line (going across) of the hundred square?

What is the smallest number on each line?

What 2 numbers make 11

$0+11=11$   $1+10=11$   $2+9=11$  you finish the story of 11 in your copy

On your hundred square:

What numbers are beside 25, 32, 31, 76, 54, 34, 56, 23, 43, 54, 65

What number is above 43, 45, 67, 65, 43, 23, 45, 65, 43, 24

What number is below 19, 54, 34, 56, 78, 76, 54, 53, 23, 43, 21

Scroll down to the maths page 16 number 1, 2, 3, 4 and 5
