

Rang 6 -Tuesday 5th May - Friday 8th May

Hello girls and parents,

Another week of distance learning is upon us all. I hope you're all safe and well. You're all doing amazing work and should be so proud of yourselves, keep it up. Thanks so much for those who have gotten in contact through email so far. I've provided a lot of work for the coming week as a lot of you have e-mailed asking for extra work - as usual there is no pressure to get everything done. Also, if any of Ms. Dermody's girls would like to get in contact with her for individual work, her email address is bdermody@mercyprimaryschool.ie and she will have lots of fun activities for you to complete.

Monday is a bank holiday so take the day off to relax, read a book, text a friend or bake a cake. Please continue to work at your own pace, and do what you can. If you have any questions please send me an e-mail.

Remember girls, you work at your own pace, and do whatever you can do. You're all doing **amazing** work. Please keep the pictures of your work coming to me, I love seeing all the hard work you're all doing.

Stay positive, stay active and stay happy. Find the good in every day.

Miss. Teehan

Write a persuasive piece showing whether you agree or disagree with one of the following statements:

'Teachers should be replaced by computers.'

OR

'Online influencers are good role models for young people' (e.g. Tik Tokers, instagrammers or youtubers).

Maths

Planet Maths: Topic 21 - Money

Take an activity or two per day.

Page: 131 - Activity C

Activity D Q1 & 2.

Page 132 - Activity A & B

Page 133 - Activities A & B

Page 134 - Activities A & B

These two pages contain some new concepts. So these two pages are **totally optional** for anyone who would like to try them. I've no problem in correcting the work, and answering **any** questions you might have.

Continue with **Mental Maths** daily.

Maths Riddles - give them a go!!

- Add me to myself and multiply by 4. Divide me by 8 and you will have me once more. What number am I?
- Tom was asked to paint the number of plates on 100 apartments which means he will have to paint numbers 1 through 100. Can you figure out the number of times he will have to paint the number 8?
- Seven girls met each other at a party. Each of them shakes hands only once with each of the other boys. What is the total number of handshakes that took place?
