## Hot and Cold

Unlocking SESE, Lesson number 14, pg 61

- Compile a list of hot things and a list of cold things.
- Discuss when our bodies might get hot or cold. Discuss when we might need to eat/drink, hot/cold food and drinks.
- Discuss the dangers of hot weather and the importance of wearing sunscreen. Discuss the dangers of hot food and hot water. Discuss the dangers of a high body temperature.
- Do you know how jelly is made? What do we need?
- Read out the steps for making jelly on pg. 62
- Make the jelly if you can.
- Colour the picture on the 'Let's Make Jelly' page.

**ART:** Draw a picture of you on a sunny day. Include a sunhat, sunscreen and sun glasses! Draw something you might be eating and something you might be drinking etc..

## Maths In Your Home

- More than /less than This can be a difficult concept for children to grasp so a lot of hands on work is excellent here!
  - Set up sets of household objects in pairs, eg. 4 apples and 6 oranges, 10 spoons and 8 forks, 3 carrots and 7 potatoes etc - Begin by asking the children which set has more? Which set has less? - Repeat this process numerous times changing the amount in each set.
  - You can then progress to asking the children “By how many more is the set of oranges than apples?” “By how many more is the set of spoons than forks?” etc You may need to use the word extra to begin with: “so you said there are more oranges than apples, well how many more oranges than apples are there?...how many extra oranges than apples?”
  - Hopefully the children will eventually be able to work out and say “6 is more than 4 by 2” and so on.
  - You can then repeat the process for less than. “How many less apples are there than oranges?” You may also use the word fewer with the aim that that the children will be able to say 4 is less than 6 by 2 or 4 is fewer than 6 by 2.
