

# The Zoo

***Let's Go To The Zoo!***

# At The Zoo

The Zoo (*zoological garden, zoological park, menagerie*) is a very interesting place where all children and big people like to go.

There, we can see many animals and listen to them sounds.

**Do you like zoos?**

# Vertebrate Animals

**Mammals**

**Birds**

**Amphibians**

**Fish**

**Reptiles**

**Do you have any pets?**

# The Tiger

This is a tiger. It is a mammal animal.

They are very strong and dangerous. They live in Asia

# The Lion

The Lion is the '*King of the Jungle*'. The mature male lion has a mane that covers the backside of the head, and the shoulders.

The lion baby is called Cub. The female lion is called Lioness. They live in Asia and Africa.

# The Giraffe

The giraffes have horns and a long neck. They eat only leaves and fruits (herbivore).

They live in Africa.

# The Elephant

This is an elephant. Its 'big nose' is called Trunk. The long teeth is called Tusks. They have large ears. Its habitat is Asia and Africa.

# The Kangaroo

The kangaroo has large and strong legs. They carry their youngs in the pouch.

They live in Australia.

# The Rhinoceros

The rhinos are very big grey animals with thick skin.

They have either one or two horns on their nose.

They live in Africa or Asia.

# The Zebra

The zebra is similar to a horse.

They have black and white stripes along their skin.

They live in Africa.

# The Bears

Brown Bear

Polar Bear

Panda

# The Koala

Koala is a marsupial animal that lives in Australia.

They have a pouch to carry their babies.

# Monkeys

Monkeys are small primates with tail and no thumbs.

They spend a lot of time up in trees and they like to eat fruits.

# Apes

**(Gorilla, Chimpanzee, Orangutan)**

Apes are bigger than monkeys. They live more comfortably on the ground.

They don't have tail, but they can climb trees.

An ape is cleverer than a monkey.

# The Camel

They are recognized by the humps on their back. They live in the desert (Asia and Africa).

There are 2 types of them:

- **Dromedary** (with one hump);
- **Bactrian** (with two humps);

# The Hippo

The hippopotamus is a semi-aquatic animal.

They are big, heavy and dangerous.

They live in Africa.

# Reptiles

Alligator

Turtle

Snake

# The Birds

These are birds. They have wings, but some of them can fly.

**Peacock**

**Ostrich**

**Swan**

**Duck**

**Macaw**

**Goose**

**Parrot**

**Toucan**

**This is a Bird Nest**

**There are 3 eggs in  
the nest**

# Activity Time!

- What is your favourite animal?
- Imagine that you are an animal:
  - Are you a mammal, a reptile, an amphibian, a fish or a bird?
  - What food do you eat?
  - How is your appearance?
  - Where do you live?
