

# hello.... **I'M BACK!**

Hi everyone....

I hope you all had fabulous weekend. I hope you are all staying happy and healthy. The work that you have all put in and to anyone at home who has played a part in any of the learning or work that has been going on – THANK YOU. It has just been so fabulous and heart-warming to see all the wonderful work that has been put in over the last few months- the writing, art work, projects, maths, the baking, the making and creating the outdoor fun and activities- I want you all to be VERY proud of yourselves. It is not easy being at home, away from teacher and continuing school work in a new environment but you are all mighty girls, I am so impressed and proud to say the least.

#STAYATHOME & #SLAYATHOME

I STILL CANNOT get my head around the fact we are in JUNE. I want to give a shout out to all my JUNE birthday ladies ; Alexia, Anna and Katie , girls I hope you all celebrate in the best way possible in the circumstances we are in, eat lots and enjoy being spoiled- you deserve it.

From here on out the work will be lessening –WUHOOOOO as we would have been approaching the wind down of the school year and revising. So I will be just giving some writing, maths, Gaeilge simplí, stem activities, art activities and different bits and bobs. I will give OPTIONS for continuing some reading and comprehension questions. CHOOSE yourself what you wish do at this point.

The weather will hopefully stay bright so it is time to pull away from the school work table gradually, hop up in the morning, have your breakfast and go out in the sunshine to have fun and explore.

Like always THANK YOU, THANK YOU to everyone that is sending me emails, seeing how happy you girls are means the world to me. As I always say...once you're happy...then I'm happy.

It saddens me how this time of the year we would have been partaking in dance and preparing for our concert, outdoor classroom day, our school tour and of course sports day. It doesn't have to end there, you could...practise dance at home and put on an outdoor dance performance for your family, you could create a fun day with mini stations and have outdoor back garden day..prepare it using household items and then invite your siblings and family out to see your creation. Remember girls we are optimistics..never let anything stop you from trying to have fun or being creative. If you want to have fun at home –DO IT! Get up, get thinking, be creative...you all have amazing ideas!

As you have probably heard from the news and updates from Leo Varadkar- we progressing to phase 2 of lockdown- this is a positive. We are starting to see some businesses reopening with measures in place to keep people safe and everyone protected as best they can. This is good news, and it is great to see some normality in our lives again. Things are looking up girls, keep the faith!

Again I am only ever an email away if ever you need anything. Plus it is a great way to practise your typing skills to drop me an email. Say hi, send me a joke, fill me in on the news, I always love hearing how you are all getting on!

Miss you all

Love always

Miss Murphy <3

Art :

This week for art I want you to make a painting using: Tea or coffee.

All you need is some warm water ( be careful with preparation for this lesson ask a parent/guardian to assist) .. a paint brush, an A4 sheet of white paper , a couple of tea bags or loose tea leaves , coffee granules. ( You can just choose 1 OR you can use both the tea and coffee in your painting) . The coffee can be used as a darker tone to give the painting a stronger effect.

You can decided on whatever it is you wish to paint.

- A person
- An animal
- A scene of some sort
- A food

Please send me on a picture of how it turned out.

\*Be careful that the water doesn't rip your picture, take your time, you might need to go over the painting a second time once it dries to make it more distinct.

Wellbeing: Why not treat yourslef and your siblings to a spa day at home.

Heat the towels, chop the cucumber... get out all the cosy pjs, slippers and blankets and just relax!

You could;

- Wash your hair and leave in some conditioner - it would act as a hair mask and soften your hair leaving it smelling divine.
- You could make a face mask using 'home ingredients' DIY facemask- mix natural yoghurt and 2 spoons of honey in a bowl. Apply it to your face (mindful of alergies ect) -sit back and relax!
- Paint your nails and toes- then return the favour for a sibling
- Lie back before pressing play on some relaxing music with 2 pieces of cucumber or cooled tea bags on your eyes!

Sit back, and just let your thoughts happen. It is so important to stop what your doing sometimes and reset. Take a break , be kind to your body and slow down. Think of how many times you charge your ipads, laptops etc ... when do you recharge yourself? ?

After your spa day.. finish it off with some popcorn and a family movie. You deserve it.

Have a great weekend girls

Thank for all your hard work and continuous efforts

All my love

Miss Murphy
