

Rang 6 Wednesday 3rd - Friday 5th June

Hello to all of my wonderful girls and parents,

I hope you're all keeping well and getting out (while social distancing) and enjoying that glorious sunshine we are so lucky to have!! I'm not sure how much longer it's to last so make the most of it. Sit out in your garden and read a book - that's what I do, or pucker a ball off the wall, gymnastics, trampoline etc. so much to do outdoors within your own garden no matter how big or small.

I want to thank the girls who have so far sent me on their video of the confetti popper...it's still not enough for a class video so **GET MOVING!!** It's so simple and honestly a bit of fun 😊 We're into June now girls and it's so hard to believe where has the time gone? So the work will be a little different from here on in, less focus on books and more on activities as much as possible.

I look forward to seeing you on zoom on Thursday evening, I still haven't heard back from some girls, so if you haven't replied please do **ASAP**, or if you didn't get the email with the details please email me also.

MATHS COMPETITION WINNER and our reigning tables **QUEEN** is.....Miss Jasmine Bennett. Jazzy completed the tables questions in a jaw dropping **37 SECONDS!!!!** I even tried to do it faster, but it took me 57 seconds. I gave it to my sister and....she gave up after 4 questions. She said it was too stressful and too hard....imagine!!

As always girls if you've got any questions, worries or thoughts I'm just a click away.
MISS YOU ALL SO MUCH!

See you all soon!!! 😊

Stay safe and happy,

Lots of love

Miss. Teehan ❤️

English:

We are linking our English and SESE again. This week I've put together a reading piece about natural phenomena around the world. It's mad all of the things that are out there that I knew nothing about, so I picked my favourites to share with my girls.

Now the activity to go with it isn't boring old questions that I know you all hate. Instead I want you to find another natural phenomenon and find out some facts about it. How your present these facts is up to you as I have said at the end of the reading piece also.

Writing:

Dear 2030 me....

Write a letter to yourself to read in ten years time. What would you like to remember from this time? What do you hope to have achieved by 2030? Ask a parent to hold onto it until 2030.

In 2030 you'll be turning 21/22/23! What will life be like then? Imagine how interesting it would be at that age to read something you wrote yourself from this crazy time!

Maths:

I have attached an emoji maths puzzle challenge for you all some of them are easy, but some of them are super tricky. Give them a go, they take a bit of thinking but are fun.

This week's competition...Countdown! Obviously the winner will be the person with the correct answer **FIRST**. **BUT** if nobody can get the correct answer the closest answer will win, so even if you're really close send it in, and I'll need to see your work as always. I've got the solution which I will post next week as well. Happy calculating!

Target: 185

Numbers: 50 25 10 9 8 6

Gaeilge:

Briathara Neamhrialta - Tabhair (to give)

Aimsir Chaite (gave)	Aimsir Laithreach (give)	Aimsir Fháisteanach (will give)
Thug mé	Tugann mé	Tabharfaidh mé
Pronunciation Hug	Pronunciation Tug-in	Pronunciation Tour-hig

Scríobh 2 abairtí san aimsir chaite, aimsir láithreach agus san aimsir fháisteanach.

Samplaí:

Thug Linda a mála scoile do Carmina agus chuir sí a cóta uirthi. (A.C)

Tugann Ava bia do a madra Pepper gach maidin agus oíche. (A.L)

Tabharfaidh Jazzy brontannas do a deirfiúr Nicole ar a breithlá. (A.F)

S.E.S.E

Reminder about the confetti poppers so I am leaving this here. **Send me videos of this one, I usually take a class video of this so...if I get a video from everyone I'll do my best to make a collage effect video with you all popping confetti!!**

ALSO..... DIY Lava Lamps...you may have done these before, but it's always a fun one to do.

Materials

- 1 clean, plastic soda bottle with cap – you could also use a clean jar.
- Vegetable oil
- 1 Alka-Seltzer tablet for a 16 oz soda bottle or 2 tablets for per liter bottle
- Food coloring
- Water

Method

- Gather materials over a surface that cannot be damaged by oil or can be wiped clean. Another good option is to cover a table with old newspapers.

- Fill the plastic bottle $\frac{3}{4}$ full with vegetable oil.
- Add water to the bottle, leaving a little space between the water line and the top of the container. (You can always add more water at a later time.)
- Decide on a color for your 'lava lamp' bottle. Select the food coloring accordingly.
- Add 10 or more drops of food coloring to the bottle until a rich color is seen.
- Break the Alka-Seltzer tablet into smaller pieces (6 to 8). Add one piece at a time observing each reaction.
- When the bubbling stops put the bottle cap back on.
- Tip the bottle back and forth and observe the reaction. Tip, twist, and shake the bottle in different directions.

SPHE:

Continue to write down something good about every day and something good about yourself.

Some guided mindfulness relaxation.... https://www.youtube.com/watch?v=HK_cbpnzGqI this is honestly SO relaxing girls. I did it all and felt so good afterwards. It's always good to take some time for yourself and do nothing.

If any of you would like me to send you a well-being journal like the one we had during well-being week, send me an email and I will get it to you 😊

Art

What makes me happy! Draw, paint or build something that makes you happy. It might be a person, it might be a colour, it might be a song or a sport. Whatever it is, that's what your art is this week. Draw what makes you happy.

Music

This week's song is 'Have It All' by Jason Mraz. Some of you may remember it from last years 6th class. The message in this song is so powerful, please sit down and listen, read the lyrics and apply them to you. You can have it all, dream, believe, achieve (and hard work)
